# ACETECH™

# FLEET INTELLIGENCE

## Intelligent Fleet Compliance – All in One Platform

**FLEET INTELLIGENCE** is **ACETECH's** powerful cloud-based solution that transforms complex fleet management into a streamlined, smart, and scalable operation. From procurement to disposal, it enables full visibility and control over every aspect of your fleet.

## Why Fleet Intelligence?

**FLEET INTELLIGENCE** simplifies fleet management by automating admin, ensuring compliance, and delivering real-time insights. The **only purpose built solution for emergency services** connects all of your fleet on one platform - providing comprehensive visibility, increasing fleet availability while helping you manage your budget with a total cost of ownership trend analysis. Fully mobile and packed with smart integrations, it's built for modern, data-driven operations.

## What you get

- Live dashboards for compliance & vehicle availability status
- Integrated & live data directly from the vehicles
- Digital crew portal - real-time reporting
- Custom form builder for inspections defect reporting & workflows
- Service compliance, maintenance & repairs
- Seamless integration with ACETECH Solutions
- Secure, centralized data hub for all stakeholders

## Key Benefits

- One platform for all KPIs – inspections, defects, repairs, scheduled servicing & more
- Complete visibility & audit trail for every issue
- Reduce your VOR / downtime with on-time maintenance and faster repairs
- Simplify insurance & claims through digital incident tracking
- Centralized total cost of ownership and financial planning tools
- Streamline your audits with impartial time stamped record-keeping
- Reliable vehicles, reduced pressures, and safer patient journeys

## Built for Every Role

**Paramedic:** Simple digital forms, reduced paperwork, focus on care

**Fleet Manager:** Evidence of availability, compliance, maintenance

**Operations:** Increased vehicle availability, improved awareness for planning

**Exec Leadership:** Data-driven decision making, unified experience

**Finance Directors:** Total cost of ownership and budget insights

**Risk and Safety:** Claims management, compliance reporting

**Patients:** Better experience through a reliable & available fleet
